

Calvatis GmbH

Brewery and mineral fountain

Your partner for... ...innovative hygiene management

Calvatis is one of the leading independent manufacturers of cleaning and disinfection products. We offer our customers individual hygiene concepts based on this experience. Calvatis has been successfully represented in the global market for over 75 years with its calgonit product range.

The main applications are in

- Hygiene consulting and hygiene management
- Beverage industry
- Food industry
- Institutions
- Milk-processing industry
- Agriculture
- Equipment and systems technology
- Water treatment
- Laundry
- Production to order

calvatis
calgonit
industrial

Calvatis has a mature product range of over 1,000 branded products in the calgonit product lines and can therefore provide integrated hygiene concepts for all areas.

Calvatis develops and produces at its Ladenburg site in Germany, from where it also coordinates global sales of products and services.

Calvatis products and the company's comprehensive services provide all customers with top quality at an optimal price/performance ratio.

Calvatis is certified according to ► DIN EN ISO 9001 and ► DIN EN ISO 14001

Calvatis specialises in the production of cleaning and disinfection products, particularly when it comes to services, to ensure clear differentiation from competitors.

High quality and environmental awareness are second nature for Calvatis, are lived, maintained and continuously adapted to the increasing demands in the market.

Brewhouse

calgonit R flüssig

30 kg  calgonit R flüssig is a concentrated caustic detergent. The product doesn't foam, is easy to dose by conductivity and is suitable for circulation and spray cleaning of tanks, pasteurisers, pipe work, brew kettles, whirlpools and centrifuges as well as for crate washing in the food, milk and beverage industry. calgonit R flüssig can be used cold as well as hot. For enhancing cleaning performance calgonit R flüssig can be combined with Hypochlorite (calgonit AD 860). calgonit R flüssig is suitable for soft to medium hard water.

280 kg 

1000 kg 

calgonit R flüssig spezial

calgonit R flüssig spezial is a high caustic liquid detergent suitable for the food and beverage industry as well as the milk industry. It is stabilized for high water hardness and can easily be dosed by conductivity. Even if it is applied for spray cleaning the product doesn't foam. For enhancing cleaning performance calgonit R flüssig spezial can be combined with Hypochlorite. calgonit R flüssig spezial is suitable for cleaning of brew vessels, whirlpools, pasteurizers, tanks, containers, pipe work, centrifuges and crate washing. If water hardness is above 6°dH the product can be used for cleaning of aluminium Kegs because there is only low etching.

15 kg  28 kg  290 kg  840 kg 

calgonit RT spezial

30 kg  calgonit RT spezial is a highly concentrated caustic detergent with defoamer for use in the food processing and beverage industry. The product is especially suitable for hot circulation and spray cleaning of tanks, pasteurisers, pipe work, containers, brew kettles, whirlpools and centrifuges. calgonit RT spezial does not foam when applied above 40°C and is easily dosed by conductivity.

290 kg 

840 kg 

calgonit R flüssig HA

calgonit R flüssig HA is a concentrated high caustic based detergent. The product does not foam, can easily be dosed by conductivity and is especially suitable for circulation and spray cleaning of tanks pasteurisers, pipe work, brew vessels, whirlpools, centrifuges and cheese makers in the food, milk and beverage industry. calgonit R flüssig HA may be used cold and hot and can be combined with active chlorine under use conditions.

Acid

calgonit SP

calgonit SP is an acidic detergent for use in the food and beverage industry. The product does not foam and is suitable for the automatic cleaning of tanks, pipes, pasteurisers, brew vessels, whirlpools centrifuges and kegs. calgonit SP can be dosed by conductivity and is easily rinsed off. calgonit SP is an acidic detergent for use in the food and beverage industry. The product does not foam and is suitable for the automatic cleaning of tanks, pipes, pasteurisers, brew vessels, whirlpools centrifuges and kegs. calgonit SP can be dosed by conductivity and is easily rinsed off.

calgonit jalu sauer plus

calgonit jalu sauer plus is a liquid, strongly acidic detergent based on nitric acid for use in the food, milk and beverage industry. calgonit jalu sauer plus is a powerful descalant and has good wetting, cleaning and emulsifying properties due to special surfactants. Special inhibitors in the product prevent formation of nitrous gas and reduce corrosion attack on plastic gaskets. calgonit jalu sauer plus can be used cold and hot and is easily dosed by conductivity. The product is low foaming when used by spray and is easily rinsed off. calgonit jalu sauer plus is suitable for automatic cleaning of pasteurizers, tanks, milk collecting trucks, centrifuges and pipes.

calgonit jalu sauer

calgonit jalu sauer is a liquid, strongly acidic detergent for use in the food and beverage industry. The product is a powerful descalant which can be used hot and cold. calgonit jalu sauer contains special inhibitors to prevent formation of nitrous gas and to reduce corrosion attack on plastic gaskets. It can be dosed by conductivity and is easily rinsed off. calgonit jalu sauer does not foam and is suitable for the automatic cleaning of tanks, pipes, pasteurisers, brew vessels, whirlpools centrifuges and kegs.

Chlorine

calgonit CN 353 is a liquid, alkaline detergent concentrate with active chlorine for use in the food and beverage industry. calgonit CN 353 does not foam and is suitable for soak, circulation and spray cleaning of tanks, pipes, mixing, storage and transport vessels as well as for cleaning of buttermaking machines and smoke sticks made of aluminium. calgonit CN 353 contains an effective inhibitor preventing the attack on aluminium, copper and brass.

calgonit CN 353

calgonit 6010

calgonit 6010 is a concentrated, alkaline, liquid product with active chlorine. The product does not foam and is suitable for circulation and spray cleaning of tanks, pipes, containers and crates in the beverage, dairy and food industry. calgonit 6010 removes organic deposits like protein, fats, starch, milk- and beverage residues. The product can be dosed by conductivity and is easily rinsed off leaving the cleaned surfaces in excellent hygienic conditions.

Additive

calgonit 1177

calgonit 1177 is a chelate free additive based on special salts of organic acids designed for use in automatic cleaning systems of the beverage industry. calgonit 1177 is not foaming, controls hard water scale and combined with caustic removes tenacious organic soils e.g. dried on yeast and mould deposits. calgonit 1177 is used for washing of glass and PET bottles as well as for alkaline CIP-cleaning of tanks, pipes and kegs. When used in bottle wash operations lye corrosion on glass surfaces is noticeably reduced (antiscuffing effect).

calgonit CD-S*

calgonit CD-S is a standardised solution of hydrochloric acid to produce chlorine dioxide for water treatment and disinfection in rinse sections of bottle washing machines.

calgonit CD-L is a standardised solution of sodium chlorite to produce chlorine dioxide in a special chlorine dioxide preparation device. The produced chlorine dioxide can be used for water treatment and all disinfection tasks in food and beverage industry.

calgonit CD-L*

calgonit sterizid forte 15*

calgonit sterizid forte 15 is a liquid, acidic disinfectant based on peracetic acid. It effectively kills bacteria, spores, yeasts, fungi and viruses even at low temperatures. calgonit sterizid forte 15 does not foam and is suitable for disinfection tasks in the food industry. The product is suitable for general surface disinfection, for automatic sanitation of tanks, containers, pipes and equipment as well as for use in water stages of bottle washing machines. Furthermore the product can be used for intermediate disinfection of milking equipment, tube milking machines and for sanitation of animal sheds after cleaning.

calgonit sporexalin*

calgonit sporexalin is a liquid, oxidizing disinfectant based on hydrogen peroxide. The product does not foam and can be used cold and hot. calgonit sporexalin is suitable for many applications of immersion-, circulation- or spray disinfection of equipment, tanks, containers, pipework and utensils in the food-, milk- and beverage industry.

*Use biocidal products with care. Always read label and product information before use.

Acid

calgonit Duocip

calgonit Duocip is a liquid, highly acidic detergent based on organic and inorganic acids for automatic cleaning and disinfection of pipe work, fermentation and storage tanks under carbon dioxide atmosphere. Due to the combined acidic post-cleaning and disinfection step the cleaning times are considerably reduced. calgonit Duocip is low foaming, can be dosed by conductivity and is easily rinsed off. It is especially suitable to minimize the P-amount in waste water. calgonit Duocip shows a very good microbiological efficacy against microorganisms typically found in the beverage production like *Lactobacillus brevis* or *Saccharomyces cerevisiae*. calgonit Duocip is neutral in odour and has no influence on the taste of the beer. Not suitable for soaking baths.

Bottle washing machine

Bottle washing machine Lye

Additive

calgonit 1177

24 kg 
250 kg 
740 kg 

calgonit 1177 is a chelate free additive based on special salts of organic acids designed for use in automatic cleaning systems of the beverage industry. calgonit 1177 is not foaming, controls hard water scale and combined with caustic removes tenacious organic soils e.g. dried on yeast and mould deposits. calgonit 1177 is used for washing of glass and PET bottles as well as for alkaline CIP-cleaning of tanks, pipes and kegs. When used in bottle wash operations lye corrosion on glass surfaces is noticeably reduced (antiscuffing effect).

calgonit 1188

calgonit 1188 is an additive especially for bottle cleaning based on complexing agents and dispersants. Due to its excellent cleaning boosting effect the product is suitable as lye additive for removal of tenacious soil like e.g. mould deposits and can advantageously be used for projects of temperature reduction in the bottle washing machine. calgonit 1188 prevents the deposit of aluminium stone and can be used for cleaning of glass-, PET-, PEN and polycarbonate-bottles. Foam control can be achieved by separate dosage of calgonit defoamers.

calgonit SB

20 kg 
200 kg 
500 kg 

calgonit SB is a highly effective surfactant combination for foam control of alkaline cleaning solutions in the dairy, beverage and brewing industries. The product is used in automatic bottle cleaning and in alkaline CIP cleaning. calgonit SB is already fully effective above 40°C, increases the emulsifying capacity and the cleaning effect of the caustic solution and can be easily rinsed out when cold.

calgonit LA flüssig

calgonit LA flüssig is an additive based on special chelates and scale control agents for use in the food and beverage industry. The product is miscible with concentrated caustic lye and can be used to improve cleaning and as scale preventive. calgonit LA flüssig is suitable for alkaline CIP-cleaning of tanks, pipes and kegs and is used in bottle washing as well. calgonit LA flüssig is approved by Coca-Cola for use with PET-bottles.

calgonit GL extra

24 kg 
210 kg 
640 kg 
1000 kg 

calgonit GL extra is a liquid, phosphate and nitrate free cleaning additive for highly alkaline cleaning solutions. The product is suitable as lye additive for CIP cleaning and particularly for automatic bottle washing in the milk and beverage industry. calgonit GL extra controls water hardness, increases bottle shine and effectively prevents disturbing foam in low concentrations when used hot.

Bottle washing machine Water zone

Acid

calgonit PHS

calgonit PHS is dosed into the rinse section of bottle washing machines to control pH. The product contains stabilizing agents which prevent formation of hard water scale and nozzle blockage thus ensuring efficient washer operation.

calgonit AD 817

24 kg 
220 kg 
670 kg 

calgonit AD 817 is an additive for alkaline cleaning processes to prevent hard water scale formation which can cause nozzle blockage. calgonit AD 817 is suitable for use in the food and beverage industry as well as for treatment of process water. The product is stable against oxidizing agents and therefore especially suitable when used in combination with chlorine dioxide and peracetic based disinfectants. calgonit AD 817 is effective even in hard water and suitable for PET. In pasteurizers calgonit AD 817 prevents hardness deposits and protects cans from blackening.

calgonit WST neu

calgonit WST neu is a very efficient and economical additive for scale inhibition in rinse water sections of bottle washing machines. calgonit WST neu is suitable for hard water, high temperatures and high pH-values. Due to the stabilizing of water hardness no corrosion at high pH is observed on ordinary steel of the machines.

calgonit MC 951

calgonit MC 957

calgonit MC 957 is a formulation designed for preservation of reverse osmosis membranes, which are out of work for longer periods. calgonit MC 957 is also suitable to remove free or bound chlorine from the feed water for reverse osmosis and nanofiltration equipment.

25 kg  calgonit AD 865 is a liquid, oxidizing cleaning booster based on hydrogen peroxide for use in the food and beverage industry. The product does not foam and can be used cold and hot. calgonit AD 865 can be used as an oxidizing additive to boost cleaning of acidic or caustic solutions and to remove tenacious organic soil.

calgonit SP 905

calgonit SP 905 is a product based on molybdate which is especially developed for food sterilization equipment. The product prevents efficiently lime scale, corrosion and deposits on packaging and inside the autoclave. The good wetting ability of calgonit SP 905 results in evenly drying and thus ensures clean and shiny packaging.

25 kg

calgonit SP 910

calgonit SP 910 is an optimized mixture of organic corrosion inhibitors, phosphates, dispersants and wetting agents. The product is especially developed for food sterilization equipment. calgonit SP 910 prevents effectively corrosion and deposits in all water-bearing areas of sterilization equipment and improves simultaneously the appearance of the finished product. calgonit SP 910 prevents reliably deposits caused by higher water hardness.entwickelt.

calgonit SP 912

calgonit SP 912 is a liquid product specifically developed for pasteurizer water treatment in the food processing industry. calgonit SP 912 provides superior scale inhibition, prevents deposition and is effective in hard water. In pasteurizers calgonit SP 912 prevents hardness deposits and protects cans from blackening. The product is stable against oxidizing agents and therefore especially suitable when used in combination with chlorine dioxide and peracetic based disinfectants.

calgonit HA 026

calgonit HA 026 is a ready-to-use, liquid lotion for hand cleaning and decontamination. The use of calgonit HA 026 essentially improves hand hygiene of personnel handling food in production. calgonit HA 026 is suitable for regularly cleaning of soiled hands, especially before hand sanitizing.

calgonit Handreiniger geruchsneutral

12 x 1 L  calgonit Handreiniger has a strong cleaning effect, is pH-neutral and lipid regulating, whereby an excellent skin tolerance is achieved. calgonit Handreiniger doesn't leave soap- and soil residues in sinks and is economic in use.

5 L 

tru-lit Cremeseife

tru-lit Cremeseife is a liquid soap based on mild eudermic substances. Lipid regulating ingredients ensure best possible protection and care of the skin even with frequent use. tru-lit Cremeseife is pH-neutral and dermatologically tested. tru-lit Cremeseife is unscented and therefore suitable for the food processing industry.

calgonit Hautschutzlotion

6 x 500 ml 

calgonit Hautschutzlotion is a low fattening and quickly absorbing protection and care lotion for stressed skin. The product cares, soothes and smoothes the skin. The lotion is easy to apply and provides a pleasant skin sensation. calgonit Hautschutzlotion is suitable for protection of heavily demanded skin which is regular in contact with degreasing detergents. It's ideal for areas where skin care and protection in connection with quick absorbance is necessary. calgonit Hautschutzlotion is especially suitable for employees in the industry, the food processing industry, trades, hotels, restaurants, hospitals and care and residential homes.

calgonit Des-H*

12 x 1 L 
5 L 

Personal hygiene is an important and essentially component in hygienically sensitive areas in the food and other industries. The required reduction of bacteria in the production and packing areas is mostly achieved by using a hand disinfection. Products for hand disinfection need a good skin tolerance, short contact time and broad spectrum kill. calgonit Des-H meets this requirements. calgonit Des-H contains neither ethanol nor raw materials of animal origin. Thus calgonit Des-H meets the Kosher and Halal requirements in the food processing industry.

calgonit Des-HE*

Personal hygiene is an important and essentially component in hygienically sensitive areas in the food and other industries. The required reduction of bacteria in the production and packing areas is achieved by using calgonit Des-HE. The product meets the high requirements for good skin tolerance, short contact time and a broad spectrum kill regarding bacteria, yeasts and enveloped viruses. Typical representatives like Corona virus, Flu virus and also the unenveloped norovirus are reliably and irreversibly inactivated. calgonit Des-HE is based on ethanol from sustainable biological sources and therefore has a characteristic odor.

For optimal hygiene management

Our goal is to ensure a comprehensive service range to make the applications in your organisation technically safe, economically effective and ecologically friendly at all times.

We further support and advise our customers with a company-specific product selection according to their needs as well as optimal product application to ensure effective cleaning and disinfection processes.

Calvatis

- ✓ helps you optimise your cleaning and disinfection processes
- ✓ helps you find the causes of faults
- ✓ helps you implement effective measures to deal with events

Calvatis...

...analyses the initial situation on site (current state protocol; report) and plans the use of the products with you

- ✓ order suggestions
- ✓ work instructions
- ✓ storage concepts

...documents the planned use (cleaning and disinfection plan)

Calvatis...

...helps you evaluate the results of monitoring

- ✓ through statistical evaluation
- ✓ and shows the need for action

...supports you in the annual verification of the cleaning and disinfection procedures

...checks and reports the plan and target specifications for cleaning and disinfection (amounts; costs; processes)

...trains your staff

- ✓ to handle cleaning and disinfection agents
- ✓ for personal hygiene
- ✓ in dealing with illnesses

...regularly monitors adherence to specifications by determining the concentrations used and the success achieved

...documents these monitoring results

- ✓ service report per visit

Colour concept

We have developed a colour concept to improve safety while working with Calvatis products. This makes it possible to determine the type of product from the colour of the canister and the labels. It makes handling our products much easier and also promotes increased safety during processing.
